

YOUR FIRST APPOINTMENT

Your first appointment is very important. We need to learn about you and you need to feel comfortable with us. Since it is critical for us to have an accurate medical and dental history, please bring a complete list of any medications that you are taking and health related issues that you may have. Many conditions and medications can have an effect on your mouth.

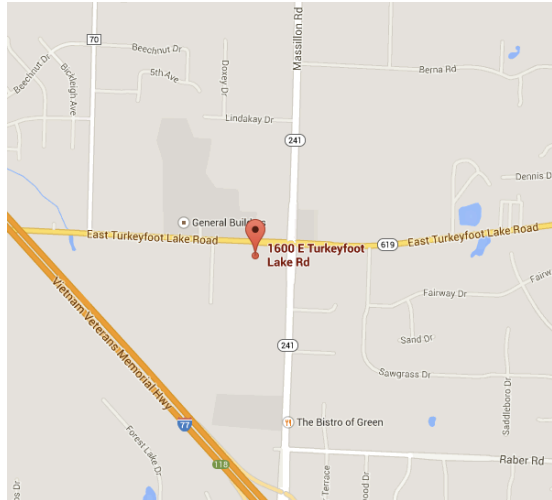

We will then examine the areas of your mouth that are of concern. If necessary, appropriate x-rays will be taken to aid us in diagnosis. After gathering this information, we will discuss your condition with you and suggest the most effective treatment to achieve dental health.

IT'S NOT JUST THE GUMS

Did you know that people with periodontal disease are four times more likely to be affected with heart disease and strokes than people who don't? Treating periodontal problems is one of the most important things you can do for yourself and your family. We take it seriously, and so should you.

FEES AND INSURANCE

We ask that the fee for the initial visit be paid in full at that time, whether you have dental insurance or not. Once a treatment plan is decided upon, for those who have dental insurance, we will work with you and your carrier to maximize your benefits. For those who have limited or no dental coverage, our Treatment Coordinator will discuss a variety of payment options. Our goal is not to let expense prevent you from the quality of care you desire and need.

Welcome to our office

Your dentist has referred you to our office because he or she feels that you have dental problems that require specialized care. By referring you to our practice, your dentist is showing concern and strong commitment to your optimal dental care.

What is a Periodontist?

A periodontist is a dentist who obtained two or more additional years of advanced education in the diagnosis and treatment of the following:

- Periodontal (gum & jawbone) diseases
- Gum recession (root exposure)
- "Gummy" smile
- Crown lengthening to help your dentist restore a broken tooth
- Temporomandibular dysfunction
- Oral pathology
- Dental implants

Dr. Everett Wu

Dr. Everett Wu is originally from Mississauga, Ontario and came to Cleveland Ohio for his extensive dental training at the Case School of Dental Medicine. There he earned his dental degree as well as his specialty degree in Periodontics. Dr. Wu has recently been honored by the American Board of Periodontology the status of Diplomate, the highest level in periodontics.

Dr. Wu specializes in the treatment of periodontal disease and has had extensive training on grafting techniques and dental implantology.

Dr. Wu is a strong believer in comprehensive care for his patients. He is the youngest specialist to have lead two Spear multidisciplinary dental study clubs, program chair for the Westshore Study Club and is a co-director of the Seattle Study Club of Akron with Dr. Raabe.

Dr. Wu is currently an active member of the American Academy of Periodontology, the Akron, Cleveland, Ohio and American Dental Association.

"Being able to sit down with my patients and listening to what their needs are allows me to create a plan with them and my referring doctors to produce the best possible outcome."

Dr. Lawrence Kaye

Dr. Lawrence B. Kaye received his bachelor's degree from Marietta College and is a 1975 graduate of Emory University School of Dentistry (Atlanta, Georgia). He served his residency at Emory University and Veteran's Administration Hospital in Atlanta, where he received his specialty training in Periodontics. The doctor has lectured and published on a variety of topics such as periodontics, TMJ therapy and dental implants. He has taught at Emory and Case Western Reserve University School of Dentistry.

Dr. Kaye is an active member in the American Dental Association, Ohio Dental Association, Akron Dental Society, American Academy of Periodontology, Ohio Academy of Periodontology and Midwest Society of Periodontology. He belongs to the Marietta College and Emory University Alumni Associations and to various community organizations
